

(b) Such establishment shall be maintained and operated in accordance with the rules and regulations recommended by the U.S. Public Health Service for such establishments, and the substantive requirements of State and local laws and regulations relating to such establishments, which would apply if such privately owned lands were not subject to the jurisdiction of the United States. In the event of conflict or inconsistency between such U.S. Public Health Service recommendations and State or local laws the former shall prevail.

(c) The Superintendent shall have the right to inspect such establishments at reasonable times to determine whether the establishment is being operated in accordance with the applicable rules and regulations and in accordance with the provisions of the permit.

§§ 5.11—5.12 [Reserved]

§ 5.13 Nuisances.

The creation or maintenance of a nuisance upon the federally owned lands of a park area or upon any private lands within a park area under the exclusive legislative jurisdiction of the United States is prohibited.

§ 5.14 Prospecting, mining, and mineral leasing.

Prospecting, mining, and the location of mining claims under the general mining laws and leasing under the mineral leasing laws are prohibited in park areas except as authorized by law.

PART 6—SOLID WASTE DISPOSAL SITES IN UNITS OF THE NATIONAL PARK SYSTEM

Sec.

- 6.1 Purpose.
- 6.2 Applicability and scope.
- 6.3 Definitions.
- 6.4 Solid waste disposal sites not in operation on September 1, 1984.
- 6.5 Solid waste disposal sites in operation on September 1, 1984.
- 6.6 Solid waste disposal sites within new additions to the National Park System.
- 6.7 Mining wastes.
- 6.8 National Park Service solid waste responsibilities.
- 6.9 Permits.
- 6.10 Financial assurance.
- 6.11 Appeals.

6.12 Prohibited acts and penalties.

AUTHORITY: 16 U.S.C. 1, 3, 4601-22(c).

SOURCE: 59 FR 65957, Dec. 22, 1994, unless otherwise noted.

§ 6.1 Purpose.

(a) The regulations contained in this part prohibit the operation of any solid waste disposal site, except as specifically provided for, and govern the continued use of any existing solid waste disposal site within the boundaries of any unit of the National Park System.

(b) The purpose of the regulations in this part is to ensure that all activities within the boundaries of any unit of the National Park System resulting from the operation of a solid waste disposal site are conducted in a manner to prevent the deterioration of air and water quality, to prevent degradation of natural and cultural, including archeological, resources, and to reduce adverse effects to visitor enjoyment.

(c) The regulations in this part interpret and implement Pub. L. 98-506, 98 Stat. 2338 (16 U.S.C. 4601-22(c)).

§ 6.2 Applicability and scope.

(a) The regulations contained in this part apply to all lands and waters within the boundaries of all units of the National Park System, whether federally or nonfederally owned, and without regard to whether access to a solid waste disposal site requires crossing federally-owned or controlled lands or waters.

(b) The regulations contained in this part govern:

(1) The use of solid waste disposal sites not in operation on September 1, 1984, including the approval of new solid waste disposal sites;

(2) The continued use or closure of solid waste disposal sites that were in operation on September 1, 1984;

(3) The continued use or closure of solid waste disposal sites on lands or waters added to the National Park System after January 23, 1995.

(c) Exceptions.

(1) The regulations contained in this part do not govern the disposal of residential or agricultural solid wastes in a site by a person who can show that he or she:

(i) Resides within the boundaries of the unit;

(ii) Generates the residential or agricultural solid waste within the boundaries of the unit;

(iii) Disposes of the solid waste only on lands that the person owns or leases within the unit;

(iv) Does not engage in a solid waste disposal practice that poses a reasonable probability of adverse effects on health or the environment, as described by the criteria in 40 CFR part 257, Criteria For Classification Of Solid Waste Disposal Facilities and Practices found at 40 CFR 257.3-1 to 257.3-8; and

(v) Is not required to possess a State or local permit or license for the disposal of solid waste.

(2) The exemption in paragraph (c)(1) of this section does not apply to agricultural solid waste consisting of a chemical used as a pesticide, an item used to apply, or a container used to store, a pesticide.

(3) Manure and crop residue returned to the soil as a fertilizer or soil conditioner are not solid wastes for purposes of this part, and do not require a request, environmental report, financial assurance or permit issued under this part.

(d) The conditions in § 6.4(a) govern the establishment of new, or the expansion of existing, solid waste disposal sites operated by the National Park Service. The conditions in § 6.5(c) govern the continued use of existing solid waste disposal sites operated by the National Park Service. However, the permit, financial assurance, administrative and penalty provisions of this part do not apply to any solid waste disposal site operated by the National Park Service.

§ 6.3 Definitions.

The following definitions apply to this part:

Agricultural solid waste means solid waste that is generated by the rearing or harvesting of animals, or the producing or harvesting of crops or trees.

Boundaries means the limits of lands or waters that constitute a unit of the National Park System as specified by Congress, denoted by Presidential Proclamation, recorded in the records of a State or political subdivision in accordance with applicable law, published pursuant to law, or otherwise

published or posted by the National Park Service.

Closure and Post-closure care means all of the requirements prescribed by 40 CFR part 258, Criteria For Municipal Solid Waste Landfills at 40 CFR 258.60 and 258.61.

Compostible materials means organic substances that decay under natural and/or human-assisted conditions within relatively short time intervals, generally not in excess of ninety days.

Degrade means to lessen or diminish in quantity, quality or value.

Hazardous waste means a waste defined by 40 CFR part 261, Identification And Listing Of Hazardous Waste. Hazardous waste does not include any solid waste listed under 40 CFR 261.4(b).

Leachate means liquid that has percolated through solid waste and has extracted, dissolved or suspended materials in it.

Mining overburden means material overlying a mineral deposit that is removed to gain access to that deposit.

Mining wastes means residues that result from the extraction of raw materials from the earth.

National Park Service activities means operations conducted by the National Park Service or a National Park Service contractor, concessionaire or commercial use licensee.

National Park System means any area of land or water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes.

Natural resource means the components of a park, both biotic and abiotic, including but not limited to, vegetation, wildlife, fish, water, including surface and ground water, air, soils, geological features, including subsurface strata, the natural processes and interrelationships that perpetuate such resources, and attributes that contribute to visitor enjoyment.

Operator means a person conducting or proposing to conduct the disposal of solid waste.

PCBs or PCB item means an item as defined in 40 CFR part 761, Polychlorinated Biphenyls (PCBs) Manufacturing, Processing, Distribution In Commerce, And Use Prohibitions at 40 CFR 761.3(x).

Residential solid waste means waste generated by the normal activities of a household, including, but not limited to, food waste, yard waste and ashes, but not including metal or plastic.

Solid waste means garbage, refuse, sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility and other discarded material, including solid, liquid, semisolid, and contained gaseous material resulting from industrial, commercial, mining and agricultural operations or from community activities. "Solid waste" does not include a material listed under 40 CFR 261.4(a).

Solid waste disposal site means land or water where deliberately discarded solid waste, as defined above, is discharged, deposited, injected, dumped, spilled, leaked, or placed so that such solid waste or a constituent thereof may enter the environment or be emitted into the air or discharged into waters, including ground waters. Solid waste disposal sites include facilities for the incineration of solid waste and transfer stations. Facilities for the management of compostible materials are not defined as solid waste disposal sites for the purposes of this part.

§ 6.4 Solid waste disposal sites not in operation on September 1, 1984.

(a) No person may operate a solid waste disposal site within the boundaries of a National Park System unit that was not in operation on September 1, 1984, unless the operator has shown and the Regional Director finds that:

- (1) The solid waste is generated solely from National Park Service activities conducted within the boundaries of that unit of the National Park System;
- (2) There is no reasonable alternative site outside the boundaries of the unit suitable for solid waste disposal;
- (3) The site will not degrade any of the natural or cultural resources of the unit;
- (4) The site meets all other applicable Federal, State and local laws and regulations, including permitting requirements;
- (5) The site conforms to all of the restrictions and criteria in 40 CFR 257.3-1 to 257.3-8, and 40 CFR part 258, subparts B, C, D, E and F;

(6) The site will not be used for the storage, handling, or disposal of a solid waste containing:

- (i) Hazardous waste;
- (ii) Municipal solid waste incinerator ash;
- (iii) Lead-acid batteries;
- (iv) Polychlorinated Biphenyls (PCBs) or a PCB Item;
- (v) A material registered as a pesticide by the Environmental Protection Agency under the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. 136 *et seq.*);
- (vi) Sludge from a waste treatment plant, septic system waste, or domestic sewage;
- (vii) Petroleum, including used crankcase oil from a motor vehicle, or soil contaminated by such products;
- (viii) Non-sterilized medical waste;
- (ix) Radioactive materials; or
- (x) Tires;

(7) The site is located wholly on non-federal lands, except for NPS operated sites in units where nonfederal lands are unavailable, or unsuitable and there is no practicable alternative;

(8) The site is not located within the 500 year floodplain, or in a wetland;

(9) The site is not located within one mile of a National Park Service visitor center, campground, ranger station, entrance station, or similar public use facility, or a residential area;

(10) The site will not be detectable by the public by sight, sound or odor from a scenic vista, a public use facility, a designated or proposed wilderness area, a site listed on, or eligible for listing on, the National Register of Historic Places, or a road designated as open to public travel;

(11) The site will receive less than 5 tons per day of solid waste, on an average yearly basis; and

(12) The proposed closure and post-closure care is sufficient to protect the resources of the National Park System unit from degradation.

(b) A person proposing to operate a solid waste disposal site that was not in operation on September 1, 1984, must submit a request for a permit to the proper Superintendent for review by Regional Director demonstrating that the solid waste operation meets the

criteria in paragraph (a) of this section. The following information must be included in a permit request:

(1) A map or maps, satisfactory to the Regional Director, that adequately shows the proposed area of solid waste disposal, size of the area in acres, existing roads and proposed routes to and from the area of operations and the location and description of surface facilities;

(2) The name and legal addresses of the following:

(i) Owners of record of the land; and
(ii) Any lessee, assignee or designee of the owner, if the proposed operator is not the owner of the land;

(3) The mode and frequency (in number of trips per day) of transport and size and gross weight of major vehicular equipment to be used;

(4) The amount of solid waste to be received, in average tons per day and average cubic yards per day;

(5) The estimated capacity of the site in cubic yards and tons;

(6) A detailed plan of the daily site operations;

(7) A plan for the reclamation and post closure care of the site after completion of solid waste disposal;

(8) Evidence that the proposed operator has obtained all other Federal, State and local permits necessary for solid waste disposal; and

(9) An environmental report that includes the following:

(i) A description of the natural and cultural resources and visitor uses to be affected;

(ii) An assessment of hydrologic conditions of the disposal site with projections of leachate generation, composition, flow paths and discharge areas and geochemical fate of leachate constituents;

(iii) An analysis of the quantitative and qualitative extent to which natural and cultural resources will be affected based on acceptable and appropriate monitoring of existing resource conditions;

(iv) Steps to be taken by the operator to prevent degradation of air and water quality, to manage pests and vermin, and to minimize noise, odor, feeding by native wildlife and conflicts with visitor uses;

(v) An analysis of alternative locations and methods for the disposal of the solid waste; and

(vi) Any other information required by the Regional Director to effectively analyze the effects that the proposed solid waste disposal site may have on the preservation, management and public use of the unit.

(c) If the Regional Director finds that the permit request and environmental report do not meet the conditions of approval set forth in paragraph (a) of this section, the Regional Director must reject the application and notify the proposed operator of the reasons for the rejection.

§6.5 Solid waste disposal sites in operation on September 1, 1984.

(a) The operator of a solid waste disposal site in operation as of September 1, 1984, within the boundaries of a unit of the National Park System, having been in continuous operation on January 23, 1995, and who wishes to remain in operation, must submit to the proper Superintendent for review by the Regional Director, within 180 calendar days of January 23, 1995, a permit request and an environmental report as described in §6.4(b) (1)–(9).

(b) Any operator who fails to submit a request as described in paragraph (a) of this section will not be allowed to continue operations and must immediately fulfill all applicable closure and post-closure care requirements.

(c) The Regional Director may approve a request to allow the continued use of a solid waste disposal site only if the operator has shown and the Regional Director finds that:

(1) Adverse effects resulting from leachate, noise, odor, vehicular traffic, litter and other activities upon natural and cultural resources will be adequately mitigated;

(2) The proposed operator meets all other applicable Federal, State and local laws and regulations, including permit requirements;

(3) The site will no longer be used for the storage, handling or disposal of a solid waste containing:

(i) Hazardous waste;
(ii) Municipal solid waste incinerator ash;
(iii) Lead-acid batteries;

(iv) Polychlorinated Biphenyls (PCBs) or a PCB Item;

(v) A material registered as a pesticide by the Environmental Protection Agency under the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. 136 et seq.);

(vi) Sludge from a waste treatment plant, septic system waste or domestic sewage;

(vii) Petroleum, including used crankcase oil from a motor vehicle, or soil contaminated by such products;

(viii) Non-sterilized medical waste;

(ix) Radioactive materials; or

(x) Tires;

(4) The proposed closure and post-closure care is sufficient to protect the resources of the National Park System unit from degradation; and

(5) The site conforms to all of the restrictions and criteria applicable to the site under 40 CFR 257.3 and 40 CFR part 258, or where applicable, 40 CFR part 240, Guidelines for the Thermal Processing of Solid Waste.

(d) If the Regional Director finds that the permit request and the environmental report do not meet the conditions for approval set forth in paragraph (c) of this section, the Regional Director shall reject the request and notify the proposed operator of the reasons for the rejection. Within 90 calendar days of such notice, the operator of the solid waste disposal site must cease disposing of solid waste at the site. The operator may resume disposing of solid waste only upon submission and approval of a permit request and environmental report that the Regional Director determines meet the conditions set forth in paragraph (c) of this section.

(e) *Site expansions.* (1) A request for an existing solid waste disposal site to continue operations by expanding its capacity, laterally or vertically, is considered a request for a new solid waste disposal site and is subject to the conditions of § 6.4(a), except as provided in paragraph (e)(2) of this section.

(2) A request for an existing solid waste disposal site to continue operations by expanding its capacity, laterally or vertically, will be judged by the approval conditions of paragraph (c) of this section if the operator shows that:

(i) The solid waste is generated solely from sources within the boundaries of the unit;

(ii) The area proposed for site expansion encompasses only nonfederal lands owned or leased by the operator; and

(iii) the solid waste disposal site lacks road, rail, or adequate water access to any lands outside the unit for all or substantial portions of the year.

(f) After January 23, 1995, an operator of an NPS-approved existing landfill solid waste disposal site may convert that site to a transfer station only after submitting a request under paragraph (a) of this section, and only after receiving approval from the Regional Director under paragraph (c) of this section. The Regional Director may approve such a request, if in addition to meeting the standards of paragraph (c) of this section, the Regional Director finds that the conversion to a transfer station better protects the unit's natural or cultural resources than the existing land-fill operation.

§ 6.6 Solid waste disposal sites within new additions to the National Park System.

(a) An operator of a solid waste disposal site located on lands or waters added to the National Park System, by act of Congress or by proclamation, after January 23, 1995, will not be permitted to dispose of solid waste after expiration of the permit or license in effect on the date of the land's or water's designation as being within a National Park System unit's boundaries. The operator must then immediately fulfill all applicable closure and post-closure care requirements.

(b) An operator of a solid waste disposal site located on lands or waters designated as being within the boundaries of a unit of the National Park System established or expanded after January 23, 1995, who wishes to remain in operation for the duration of the existing permit or license, must submit to the Regional Director, within 180 calendar days of the land's or water's designation as being within a National Park System unit boundaries, a permit request and environmental report as described in § 6.4(b) (1)–(9).

(c) Any operator who fails to submit a request as described in paragraph (b)

National Park Service, Interior

§ 6.8

of this section will be subject to the penalty provisions of § 6.12.

(d) If the Regional Director finds that the permit request and the environmental report do not meet the conditions for approval set forth in § 6.5(c), the Regional Director will reject the request and notify the proposed operator of the reasons for the rejection. Within 90 calendar days of such notice, the operator of the solid waste disposal site must cease disposing of solid waste at the site. The operator may resume disposing of solid waste only upon submission and approval of a permit request and environmental report that the Regional Director determines meet the conditions set forth in § 6.5(c).

§ 6.7 Mining wastes.

(a) Solid waste from mining includes but is not limited to mining overburden, mining byproducts, solid waste from the extraction, processing and beneficiation of ores and minerals, drilling fluids, produced waters, and other wastes associated with exploration, development, or production of oil, natural gas or geothermal energy and any garbage, refuse or sludge associated with mining and mineral operations.

(b) A person conducting mining or mineral operations on January 23, 1995, and not governed by a plan of operations approved under 36 CFR part 9, Minerals Management, or pursuant to the terms of a Federal mineral lease, may continue to operate a solid waste disposal site within the boundaries of a unit only after complying with § 6.5 and § 6.10 and with a permit issued by the Regional Director under § 6.9.

(c) A person conducting mining or mineral operations on January 23, 1995, and governed by a plan of operations approved under 36 CFR part 9 or pursuant to the terms of a Federal mineral lease may continue to operate a solid waste disposal site under the terms of the approved plan of operations or lease. Where an existing mining or mineral operation is governed by 36 CFR part 9 or a Federal mineral lease, an NPS-approved plan of operations will constitute the permit for solid waste disposal site operation otherwise required under § 6.9. A bond required under 36 CFR part 9, or by the Bureau

of Land Management for Federal lessees, will satisfy the requirements of § 6.10.

(d) A person proposing to initiate mining or mineral operations after January 23, 1995, within the boundaries of a unit of the National Park System, whether or not governed by a plan of operations approved under 36 CFR part 9 or the terms of a Federal mineral lease, may not establish or operate a new solid waste disposal site within a unit.

(e) The temporary storage, stockpiling for return, or return of nonhazardous mining overburden to the mine site for the purpose of mine site reclamation does not require a request, environmental report, financial assurance or a permit issued under this part.

§ 6.8 National Park Service solid waste responsibilities.

(a) Beginning one year after January 23, 1995, a Superintendent will not permit or allow a person to dispose of solid waste at a National Park Service operated solid waste disposal site except for waste generated by National Park Service activities.

(b) The Superintendent of a unit where the National Park Service operates a solid waste disposal site will establish a waste collection program for harmful wastes generated by residential activities by National Park Service and concessionaire households within the unit. The Superintendent will establish frequency and place of collection but such frequency must be, at a minimum, every twelve months.

(c) Each Superintendent will ensure full compliance with regulations at 40 CFR part 244, Solid Waste Management Guidelines For Beverage Containers. Only those units of the National Park System where carbonated beverages in containers are not sold, or that have prepared formal documentation of nonimplementation under 40 CFR 244.100(f)(3) that has been approved by the Director and the Administrator of the Environmental Protection Agency, are exempt from the deposit and container return program mandated in 40 CFR part 244.

(d) NPS concessionaires, commercial use licensees and contractors will comply with acquisition, recycling and

waste minimization goals established by the NPS.

§ 6.9 Permits.

(a) A permit issued under this section is required to operate a solid waste disposal site within the boundaries of a unit of the National Park System, except as specified in § 6.2(c) or § 6.7(c).

(b) Upon receipt of a request under § 6.4, § 6.5 or § 6.6, the Regional Director will analyze whether a new site, or continued operation of an existing site, meets the approval conditions of § 6.4, or § 6.5 respectively. The Regional Director will also review the request under appropriate laws and executive orders, including, but not limited to the National Environmental Policy Act (43 U.S.C. 4321), the National Historic Preservation Act (16 U.S.C. 470), the Endangered Species Act (16 U.S.C. 1531–1543), and E.O. 11988, Floodplain Management (3 CFR, 1978 Comp., p. 117), and E.O. 11990, Wetland Protection (3 CFR, 1978 Comp., 121).

(c) The Regional Director must approve or deny a solid waste disposal site request under this part within 180 calendar days of receipt of the request. The 180 calendar days do not include any days required for consultation with State or Federal agencies under, but not limited to, the Endangered Species Act, the National Historic Preservation Act and the Coastal Zone Management Act, or days required to prepare an Environmental Impact Statement under the National Environmental Policy Act.

(d) If the Regional Director approves a solid waste disposal site request under § 6.4, § 6.5 or § 6.6, the Regional Director may issue, after operator compliance with § 6.10, a nontransferable permit, the term of which shall not exceed five years. The permittee may request a new five year permit upon expiration of an existing permit. The permit instrument will be Form 10–114 (OMB No. 1024–0026), Special Use Permit, available from the park Superintendent.

(e) A permit for a solid waste disposal site will prescribe the site capacity and the requirements under which the solid waste disposal site will be operated. The requirements must include, but are not limited to:

- (1) Hours of operation;
 - (2) Number, frequency, size, gross weight and types of vehicles used, and access routes;
 - (3) Type and height of perimeter fencing;
 - (4) Compliance with all applicable Federal, State and local laws and regulations, including permit requirements;
 - (5) Type and frequency of groundwater, surface water, explosive gas and other pertinent natural resource monitoring;
 - (6) Rights and conditions of access for inspection by National Park Service and other responsible Federal, State or local officials;
 - (7) Closure and post-closure care requirements;
 - (8) Methods of pest and vermin control;
 - (9) Methods of excluding hazardous waste, municipal solid waste incinerator ash, lead-acid batteries, PCBs and PCB Items, material registered by the Environmental Protection Agency as a pesticide, sludge from a waste treatment plant or septic system, domestic sewage, petroleum, including used crankcase oil from a motor vehicle and soil contaminated by such products, medical waste, radioactive materials and tires;
 - (10) Methods of excluding waste generated from non-National Park Service activities, except for a solid waste disposal site approved under § 6.5, or § 6.6, or § 6.7(c); and
 - (11) Methods of litter control.
- (f) Any conflict between a requirement of the permit issued by the National Park Service and a requirement of State or local law will be resolved in favor of the stricter of the two requirements.

§ 6.10 Financial assurance.

(a) The Regional Director will not require a bond or security deposit for a solid waste disposal site for which the operator has established a bond under 40 CFR 258.74(b).

(b) The Regional Director will not require a bond or security deposit for a solid waste disposal site whose owner or operator is a State entity whose debts and liabilities are the debts and liabilities of a State.

(c) Upon approval of a request to operate a new, or continue an existing, solid waste disposal site, an operator who is not described in paragraphs (a) or (b) of this section must file with the Regional Director a suitable performance bond with satisfactory surety, payable to the Secretary of the Interior or the Secretary's designee. The bond must be conditioned upon faithful compliance with all applicable laws and regulations, and the permit requirements as approved. When bonds are to serve as security, an operator must provide a power of attorney to the Secretary or the Secretary's designee. The bond must be issued by a surety company listed and approved by the Department of the Treasury.

(d) In lieu of a performance bond, an operator may deposit with the Secretary or the Secretary's designee cash or negotiable bonds of the United States Government. The cash deposit or the market value of such securities must be at least equal to the required sum of the bond(s).

(e) The bond or security deposit will be established by the Regional Director in an amount equal to the estimated cost to accomplish all closure and post-closure care requirements as described in 40 CFR part 258, subpart F, but in no case less than \$25,000.

(f) The responsibility and liability of the operator (and the surety, if any) under the bond or security deposit must continue until the Regional Director determines that closure and post-closure care have been completed in accordance with the permit requirements. No portion of the performance bond or security deposit may be released until such a determination has been made.

(g) Within 30 calendar days after the Regional Director determines that all closure and post-closure care requirements have been successfully completed according to the permit, the Regional Director will notify the operator (and the surety, if any) that liability under the bond or security deposit has been terminated and the bond or security deposit released.

§ 6.11 Appeals.

(a) An applicant aggrieved by a decision of the Regional Director with re-

gard to a permit request under this part may appeal, in writing, to the Director for reconsideration. The aggrieved applicant must file the appeal with the Director within 45 calendar days of notification to the applicant of the decision complained of. The appeal must set forth in detail the respects to which the decision of the Regional Director is contrary to, or in conflict with, the facts, the law, this part, or is otherwise in error.

(b)(1) Within 45 calendar days after receiving the written appeal of the aggrieved applicant, the Director will make a decision in writing. The Director's decision will include:

- (i) A statement of facts;
- (ii) A statement of conclusions; and
- (iii) an explanation of the reasons upon which the conclusions are based.

(2) The decision of the Director will constitute the final administrative action of the National Park Service.

§ 6.12 Prohibited acts and penalties.

(a) The following are prohibited:

(1) Operating a solid waste disposal site without a permit issued under § 6.9 or, where applicable, without approval granted under § 6.7(c);

(2) Operating a solid waste disposal site without the proper amount or form of bond or security deposit, as prescribed by the Regional Director, when such a bond or security deposit is required by this part;

(3) Operating a solid waste disposal site in violation of a term or a requirement of a National Park Service issued permit; or

(4) Operating a solid waste disposal site in violation of 40 CFR Parts 257 or 258, or in violation of the equivalent State law or regulation.

(b) A person who violates a provision of paragraph (a) of this section is subject to:

(1) The penalty provisions of 36 CFR 1.3; and/or

(2) Revocation of the permit by the Regional Director if a permit exists; and/or

(3) Forfeiture of a bond or security deposit if a bond or security deposit is required under § 6.10.
